upon their return these two members were reinstated in the book and entered in our records. But I did not remember them thinking at the time that these having been removed still were active. But later in looking up accounts in the church records (see history of church) 1905-6 I found that some records of 5 then the church records were not up to date and I found these also. I am sorry that I have not remembered to inform you of this. This would make a change in the members.

Both names were removed by Consistory Dec. 24, 1933. They were suspended by church on Sept. 24, 1933.
